

## One + One: Hats

### Project Information

**As seen in Vogue Knitting Fall 2012:** *"As if we needed another excuse to buy luxury yarn. But then Schreier, the alchemist behind Artyarns, had to go and produce a sibling to One + One: Scarves, Shawls & Shrug. Enlisting the assistance of designers including hat innovator Woolly Wormhead, Melissa Morgan-Oakes and others, Schreier has compiled a collection of top-of-the-line toppers that not only show off her yarns of many colors (literally hundreds); it also offers some finger-twitching knits. Take her Camouflage cap, a fun lid with a brim, which uses double-knitting techniques to accomplish the visor, or Tanya Alpert's Fair Isle Cap (in cashmere!) with its chic mix of colors and tassel closure. You'll find new takes on the hot shapes - earflaps, slouchy beanies and berets - along with plenty of gift idea for those heading up your list"*
